

Jacobs Engineering Group Inc. is one of the world's largest and most diverse providers of professional technical services. With annual revenues exceeding \$12 billion, we offer full-spectrum support to industrial, commercial, and government clients across multiple markets. Services include scientific and specialty consulting as well as all aspects of engineering and construction, and operations and maintenance. Our primary markets include:

- Aerospace and Defense
- Automotive and Industrial
- Buildings
- Chemicals and Polymers
- Consumer and Forest Products
- Energy
- Environmental Programs Infrastructure
- Oil and Gas
- Pharmaceuticals and Biotechnology
- Refining
- Technology

Our fundamental business strategy is building long-term client relationships. With more than 60 years in the industry, we have attracted and retained clients by providing superior customer value - in fact, over 90 percent of our work is repeat business from loyal clients. The combination of a loyal client base and steady growth enables us to attract and retain the industry's top talent. As a result of this sound business strategy, we are prospering in diverse markets worldwide. Our global network includes more than 160 offices in more than 20 countries. We have operations in North America, the United Kingdom, mainland Europe, India, Australia, and Asia, with our headquarters in Pasadena, California.

We have an established presence providing engineering and construction services to multiple clients throughout the Middle East and specifically Saudi Arabia. We have permanent office locations in Al-Khobar, Saudi Arabia; Abu Dhabi, UAE; and Manama, Bahrain. One of our key initiatives in the Middle East is our commitment to Saudi Aramco's General Engineering Services Plus (GES+) contract. We are fully committed to the vision of GES+ and the success of this program will increase the opportunities for companies like Jacobs ZATE and our employees. Most importantly, it greatly enhances the stature of the Middle East engineering and construction industry throughout the world.
