

Indo-Pacific Regional Airport Checkpoint Design Reverse Trade Mission

Business Briefing | November 2, 2022 | 8:00 - 11:00 a.m. EDT | Washington, D.C.

Meet Indo-Pacific Aviation Security Decision-Makers

Join us to meet senior decision-makers from Indo-Pacific civil aviation authorities who are interested in procuring advanced airport checkpoint security screening technologies, operations, training procedures, and best practices.

BACKGROUND

Aviation security upgrades are critical to ensuring safe air travel for passengers, crew and cargo. The U.S. Transportation Security Administration (TSA) works with counterparts around the world to counter threats to aviation safety and security.

Starting in 2017, TSA develops enhanced screening measures for airports overseas with direct flights to the United States, many located in the Indo-Pacific region. These airports are required to implement security measures such as increased screening of personal electronic devices, enhanced security protocols around aircraft and in passenger areas, deployment of advanced screening technology, increased canine screening, and the creation of additional preclearance locations.

The U.S. Trade and Development Agency (USTDA), will host a Business Briefing on November 2, 2022 in Washington, D.C. for key senior Indo-Pacific civil aviation authorities to connect with U.S. aviation security companies, manufacturers and solution providers. Participating U.S. companies will meet the delegates, briefly introduce their solutions, and gain insight into specific near-term commercial opportunities to support airport checkpoint security screening development in the Indo-Pacific region.

The delegation comprises aviation security officials from the Bangladesh, Fiji, India, Kiribati, Maldives, Philippines, and Samoa who are interested in procuring U.S. technology. This briefing is part of USTDA's Indo-Pacific Regional Airport Checkpoint Design reverse trade mission.

ABOUT USTDA

The U.S. Trade and Development Agency helps companies create U.S. jobs through the export of U.S. goods and services for priority development projects in emerging economies. USTDA links U.S. businesses to export opportunities by funding projects preparation and partnership building activities that develop sustainable infrastructure and foster economic growth in partner countries.

Attendance at this event is limited to U.S. individuals, U.S. firms, or U.S. consultants as defined by USTDA's Nationality Source and Origin Requirements available on USTDA's website at <http://www.ustda.gov/>.

WHY YOU SHOULD ATTEND

- Gain market intelligence and learn about upcoming procurement opportunities
- Establish new business partnerships and meet with key decision-makers
- Learn about near-term airport checkpoint screening modernization plans of participating countries.

BUSINESS OPPORTUNITIES

- Explosive detection systems technology
- Cutting-edge imaging technology
- Automated screening lanes technology
- Innovative screening programs, such as TSA Pre-Check
- Advanced K-9 screening techniques
- Enhanced screening protocols, policies, regulations, training, and best practices
